EDUCATION

Ohio University | Athens, OH

Anticipated Graduation: **December 2024**

Bachelor of Science in Computer Science

GPA: 3.54

OHIO Excellence Scholar

TECHNICAL SKILLS

Languages & Frameworks: C++, Python, JavaScript, SQL, Flutter, Dart
Development Tools: Docker, Git, GitHub, Visual Studio Code
Data Science: Data Classification, Machine Learning, PowerBI
Process Automation: PowerAutomate, Excel (Advanced), PowerPoint

PROJECTS

Email & Calendar Interface System — Spring 2023
- Engineered full-stack email and calendar interface using Rust frontend and Python backend with Google Calendar API integration in a team of 4 developers

Event Planning Mobile Application — Fall 2023 – Spring 2024
- Led frontend development of Flutter mobile application using Dart, managing Git version control and delivering core features through agile sprints while maintaining regular client communication and feedback integration

Data Mining: Cancer Research Classification — Fall 2024
- Developed Python-based classification system for genetic cancer research database using machine learning algorithms to analyze and categorize patient samples with up to 80% accuracy

WORK EXPERIENCE

Ohio University | Athens, Ohio – Templeton Blackburn Memorial Auditorium — August 2021 – Present
Front of House Coordinator (previously Usher, Usher Manager, House Manager)
- Spearheaded training program for 20+ new employees per semester, achieving 100% completion rate in safety protocols and customer service standards across a 2000-seat venue
- Orchestrated staff scheduling for 40+ annual events and managed ticket office deposits averaging $1,000 daily, maintaining error-free financial records across all transactions
- Supervised team of 15 student staff members during events with 500-2000 guests, resulting in consistent positive feedback from event organizers

Ohio University | Athens, Ohio – Baker University Center — August 2021 – Present
Operations Assistant
- Coordinated setup and logistics for 100+ campus events annually, maintaining client satisfaction through consistent communication with event services departments
- Streamlined visitor engagement processes through the effective management of more than 30 inquiries each day, receiving feedback for delivering superior customer support and resolving complex issues
- Executed cross-departmental efforts to orchestrate the successful setup of events, ensuring seamless AV integration and optimal room configurations for enhanced guest experiences

QuidelOrtho | Athens, Ohio — May 2024 – August 2024
Operational Excellence Intern
- Established continuous improvement framework by facilitating daily M3 meetings and developing an Excel dashboard to track 20+ production KPIs
- Collaborated with the leadership team to create process flow diagrams and optimization roadmaps, identifying flaws in communication processes
- Developed automated PowerAutomate system integrated with PowerBI dashboards to rate workplace standardization across global facilities, enabling real-time data visualization
